I. PURPOSE AND SCOPE

This document outlines and defines the fees and other charges for which statutory authority is provided to Texas Southern University. This document further provides the requirements and process for approval of fees and charges under this authority, the budget allocation process, and restrictions on expenditure of the fees. The provisions of this document apply to all tuition, fees and charges imposed by the university on students, employees and the public, in accordance with Chapters 54 and 55 of the Texas Education Code.

II. POLICY STATEMENT

The Texas Education Code places restrictions on tuition, mandates that certain fees be charged, and allows certain other fees to be charged with approval from the Board of Regents ("Board"). The statutes further state that no institution of higher education may collect from students attending the institution any tuition, fee or charge of any kind except as permitted by law.

All fees and charges or amendments of fees and charges under this authorization require the approval of the Board through the process outlined in this document prior to being assessed. Revenues from the approved fees shall be budgeted and expended in accordance with the guidelines provided in this document.

III. DEFINITIONS

A. Consumables: Those tangible items that are consumed or lose usefulness within one year, or that are made of glass and therefore cannot be guaranteed to remain useful for one year.

B. Compulsory fees (54.5061): Those fees charged to all students enrolled in the university.

C. Discretionary fees: Those fees provided by the Texas Education Code that the Board "may" levy; i.e., the law allows the fees, with the Board's approval.

D. Fees and charges: For the purpose of this document, every fee and charge imposed by Texas Southern University or any university unit on students, employees or the
public. Charges between departments within the university are not included in this
definition.

E. Laboratory: Work other than class work, such as experimentation and practical
application in a laboratory or studio space, that is scheduled at a separate meeting
time apart from the time spent in the lecture.

F. Mandatory fees: Those fees and charges provided by the Texas Education Code that
the Board “shall” assess; i.e., those fees and charges that are mandated by law.

G. Materials and supplies: Consumables.

H. Course-related fees or instruction-related fees: Laboratory fees, supplemental
instruction fees, or incidental fees that are charged to cover costs of materials or
services related to a specific course or laboratory, as allowed by statute.

I. Voluntary fees (54.5061): Those fees charged only to those students who use the
service for which the fee is established.

IV. FEES AND CATEGORIES OF FEES AUTHORIZED UNDER TEXAS LAW

A. Tuition: Article 54.051 of the Texas Education Code establishes tuition rates and sets
limits related to tuition that may be charged by Texas institutions of higher education.

Also, Article 54.0513 establishes Designated Tuition. Funds collected under this
statute are considered institutional funds and are accounted for as designated funds.

B. Fees: The articles of the Texas Education Code cited in parenthesis in this section
provide for the following fees and categories of fees.

1. Supplemental instruction fee (54.051[II]): The tuition statute states that students
registered for a course or courses in art, architecture, drama, speech or music,
where individual coaching or instruction is the usual method of instruction, shall
pay a fee for the individual coaching or instruction, in addition to regular tuition.

2. General property deposit (54.502): A mandatory charge not to exceed $10 is
imposed on all students entering the university to insure against losses in
laboratories and libraries. This fee, less any loss or breakage, will be refunded
only after a student has officially withdrawn or graduated from the university.

3. Recreational Facility Fee (54.5221): A fee not to exceed $50 per semester (may
be pro-rated for summer) may be charged to each student to finance, construct,
operate, maintain, or improve the student wellness and recreation facilities. The
Board may increase the fee, but not more than ten (10%) percent per year without
a student election approving the larger increase.
4. **Laboratory fees (54.501):** The university shall set and collect a laboratory charge in an amount sufficient to cover in general the cost of laboratory materials and supplies used by a student of not less than $2 nor more than $30 for any one semester or summer term for any student in any one laboratory course. This fee is limited to laboratories, as defined in Section III above, associated with laboratory courses, and the amount of the fee shall not exceed the cost of actual materials and supplies used by the student in the laboratory.

5. **Incidental fees (54.504):** A fee may be charged to students or prospective students to cover the cost of providing materials or services which are not the subject of a charge under any other statutory authorization. Incidental fees may be course related or non-course related.

   The rate of the fee should reasonably reflect the actual cost to the university for the materials or services for which it is collected; balances of incidental fees may only accrue to the extent considered reasonable in the business cycle of the college or department, or to provide sufficient funds for replacement of equipment and furnishings on a regular, but not annual, basis. Balances accruing as a result of enrollment variances or fluctuations in the cost of materials or services will be expended for the purpose for which the funds were collected, and that use will be stated in an annual report on the use of incidental fees. Funds accruing for the replacement of equipment and furnishings will be accounted for in a manner in which the balance can be readily identified.

6. **Student service fees (54.503):** These statutes allow the university to charge fees to cover the cost of student services that the Board considers necessary or desirable in carrying out the educational functions of the university. The fees may be approved as either compulsory or voluntary; the maximum allowable for all compulsory fees is $250.00 per semester or summer session (unless approved by a majority vote of the students under this statute.)

   Student services, under this statute, cover textbook rentals; recreational activities; health, hospital, and other medical services; group hospitalization; intramural and intercollegiate athletics; artists and lecture series and other cultural entertainment; debating and oratorical activities; student publications; student government; student fees advisory committees; student transportation services; and any other student activities and services specifically authorized and approved by the Board, except those authorized by any other section of the Education Code.

7. **Rentals, rates and charges (55.16):** The Board is authorized by this statute to impose rentals, rates and charges upon students and others for the occupancy, services, use, and/or availability of all or any of its property, buildings, structures, activities, operations, or other facilities, in such amounts and in such manner as may be determined by the Board.
The Board is not required to charge students enrolled in different degree programs at the institution the same rentals, rates and charges.

8. **Fees and charges for services to the general public (54.506)**: The Board must approve schedules of minimum fees and charges for services performed by any department or unit of the university for students and the public. The schedule shall conform to the fees and charges customarily made for like services in the community.

9. **Fees for continuing education courses (54.545)**: In accordance with Section 54.545 of the Texas Education Code, the Board delegates authority to the President, or his/her designee, to set fees for each continuing education course at each institution in an amount sufficient to permit the institution to recover the costs of providing the course. Fees will be charged only for a course for which the institution does not collect tuition or receive formula funding, including an extension course, correspondence course, or other self-supporting course. Information regarding fees charged for continuing education courses shall be on file in the Office of Enrollment Services.

10. **Vehicle registration and other fees related to parking and traffic (54.505)**: The Board is authorized to charge reasonable fees to students, faculty, and staff for registration of vehicles. The Board is also authorized to charge reasonable fees for parking facilities, enforcement and administration of parking and traffic regulations. These fees are voluntary.

V. REVIEW AND APPROVAL OF NEW FEES AND CHARGES OR AMENDMENT OF EXISTING FEES AND CHARGES

All requests for new fees and charges will be concurrently solicited and sent to the Board for approval annually. Fees and charges may not be assessed without appropriate prior Board or presidential approval. All fees and charges made under these policies and procedures shall be requested and approved in accordance with this document and budgeted and expended under the restrictions outlined below.

Under Texas law, tuition and fees may not be increased after the student has registered for the semester or summer term for which the tuition or fee is in effect. Therefore, the annual fee approval process should be completed prior to early registration for the semester for which the fee is in effect.

A. **Administrative and Auxiliary Fees**:

The Administrative and Auxiliary Fee Committee is appointed by the Chief Financial Officer and is charged with the review of all administrative and auxiliary fees and designated tuition that are charged by the university. This annual review is conducted during the same timeframe as the review of course, lab and incidental fee with the colleges occurs. The committee makes
recommendations to the Chief Financial Officer about whether the fees are pertinent and whether the amount charged is appropriate. Annually, each member of the committee, whose department assesses fees, will certify their understanding of the policies and statutes related to the assessed fees. The committee is comprised of representatives from each area that is responsible for an administrative or auxiliary fee. Annually, the Chief Financial Officer will appoint members to this committee. Each year, the committee will submit its final report to the Chief Financial Officer for consideration by the President. Annually, the chair of the Administrative and Auxiliary Fee Committee will distribute a schedule and guidelines for requesting of fees and charges for the following fiscal year. The distribution will be made to all Deans, Directors, College/Division Administrators and members of the President’s Cabinet.

Annually, the chair of the committee will request a report from each department receiving incidental fee revenue on the use of the fee monies for the prior fiscal year. This report will include an analysis of fee revenue and expenditures, certification that expenses were appropriate to the purpose for which the fee is charged, and a business plan for the use of accrued balances, if any.

B. Academic Fees:

The members of the Academic Fee Committee are appointed by the Provost and serve for a term of one (1) year. Each year, the chair of the Academic Fee Committee will distribute guidelines for incidental, laboratory and other instructional-related fees and charges, and solicit requests for instruction-related fees and charges for the following fiscal year. The Academic Fee Committee will consider all requests for the addition, modification and deletion of fees, and recommend action on these requests to the Provost. Annually, the chair of the Academic Fee Committee will request a report from each department receiving incidental fee revenue on the use of the fee monies for the prior fiscal year. This report will include an analysis of fee revenue and expenditures, certification that expenses were appropriate to the purpose for which the fee is charged, and a business plan for the use of accrued balances, if any. Departments and colleges will at the same time certify their understanding of the policies and statutes related to the assessed fees.

The above-mentioned fee committees shall evaluate and recommend all requests for new fees and charges.

As a general rule, any new fee or charge or amendment of fee or charge requires the approval of the Department Head, the Dean or Director, the College/Division Administrator, the responsible Vice President, President, and the Board. Board approval may be delegated to the President for certain fees, as specified in Board of Regents policy. Designated tuition or a fee may be charged at a rate lower than the approved rate if approved by the President.
VI. BUDGETING AND EXPENDITURE RESTRICTIONS

A. Tuition and “Designated Tuition”:

1. Tuition is allocated during the annual budget preparation process and is accounted for as education and general funds. Tuition is subject to the expenditure restrictions of state funds.

2. Designated Tuition is accounted for as designated funds and is allocated as a part of the annual budget preparation process. These funds are expended as designated (local) funds.

B. Fees and charges:

1. Supplemental instruction fees are accounted for as education and general funds and are subject to the expenditure restrictions of state funds.

2. General property deposit funds are accounted for as a liability in the general ledger, if and when, the funds are forfeited by the student. General property deposit funds are invested in accordance with Sections 51.003 and 51.0031 of the Texas Education Code.

Students may request a refund on general property deposits. The student who made the deposit must make their refund request within four (4) years from the date of last attendance. Deposits not requested by that time are forfeited. Forfeited general property deposits are transferred into a designated cost center, the Student Deposit Fund, in accordance with state direction. Income from investment of the Student Deposit Fund is expended for scholarships to needy and deserving students who are residents of Texas.

3. Student Life Center fee revenues are budgeted into auxiliary cost centers. Student Life Center fee revenues may be expended, subject to the recommendation of the Student Fee Advisory Committee and the final approval of the President and the Board, for necessary expenditures related to the operation, maintenance and capital improvement of the University Center.

4. International education fees are deposited into a designated account. Funds are used to provide scholarships for study abroad programs, as provided by state law. Scholarship recipients are determined by a committee administered by the Office of the Senior Vice President for Academic Affairs and Provost.

5. Laboratory fees shall be budgeted and accounted for as educational and general funds.
Funds collected as laboratory fees shall be expended only for consumable supplies and materials actually used in the laboratories, such as paper, copying, chemicals, art materials, etc. used in the laboratories.

6. **Incidental Fees** shall be budgeted and accounted for as other designated funds.

The revenues from incidental fees must only be used to provide materials, equipment, furnishings and services specifically for the purpose assessed. Incidental fee revenues may be spent for the following:

- Consumable materials and supplies used in the course or services that are more effectively and economically purchased in bulk and charged through this fee.

- Non-consumable supplies and materials used in courses or to provide services that are not consumed, the usefulness of which may extend beyond one year, such as: maps, computer software, cables and transportation costs. This does not include reference materials.

- Equipment and furnishings that are related directly to academic activities.

- Service contracts for maintenance of instructional equipment. Copier rental may be allowable proportional to the copies distributed to students.

- Wages for students or staff to assist in the instructional process; i.e. tutors for laboratories, instructional assistants and graders, and will include salaries and wages for staff providing service to the students, such as advising and planning, and those staff maintaining equipment and furnishings used for the instruction and providing of service for which the fee is assessed. This also includes salaries for employees providing non-instructional related services to students.

- Travel costs that are a function or requirement of the course, such as practice teaching supervision or field trips.

7. **Student service fee** revenues are budgeted into auxiliary cost centers. Student service fee revenues may be expended, subject to the recommendation of the Student Fee Advisory Committee and the final approval of the President and the Board, for necessary expenditures in support of the student service for which they are allocated.
8. **Recreational Facility Fees:** Are deposited into auxiliary cost centers and expended for purposes related to the student wellness and recreational facilities.

9. **Rentals, rates and charges:** Revenues from rentals, rates, and charges shall be deposited into designated cost centers or auxiliary cost centers, and expenditures shall be restricted to the purpose for which the rental or charge is assessed. Where the charge is for rental of university space for which Education and General funds are received, the state must be reimbursed for utilities and maintenance costs.

10. **Fees and charges to the general public:** Revenues from fees and charges to the general public are deposited into designated or auxiliary cost centers and expended to provide the good or service for which the charge is assessed.

11. **Fees for continuing education courses** shall be deposited into designated cost centers created for that purpose and shall be expended to cover the costs of the courses.

12. **Vehicle registration fees and other fees related to parking and traffic** shall be deposited into auxiliary cost centers. The revenues from these fees shall be expended for the purpose for which assessed including registration of vehicles, building and maintenance of parking lots and facilities enforcement of parking restrict.

VII. NOTIFICATION OF BOARD APPROVAL

The chairs of the administrative and academic fee committee shall notify fee users of Board action or presidential action regarding recommendations from their respective committees.

VIII. BILLING AND PAYMENT

A. All instruction-related fees and charges shall be billed through the student billing system to the extent practicable. Similarly, wherever possible, other significant regular fees and charges (such as application fees) shall be billed through the student billing system and payments made through Student Financial Services.

B. Those charges and fees handled by the college or division are subject to MAPP 03.07.01 on Cash Handling.

IX. BUDGETING

The budgeting of tuition and fee revenues and associated expenditures shall be incorporated into the annual budgeting process of the university.
X. MONITORING

The Provost shall monitor expenditures of revenues from instruction-related fees through the annual fee reporting process.

The Budget office shall monitor fee income and expenditures as a part of the monthly university budget to actual reports. The Provost shall monitor instruction-related fees at the college level for appropriate expenditure rates based on revenues.

XI. REVIEW AND RESPONSIBILITY

Responsible Party: Chief Financial Officer

Review: Every August of legislative years

XII. APPROVAL

Chief Financial Officer

President

Date of President’s Approval: 06/24/09
