VI. INSURANCE COVERAGE FOR AUTHORIZED DRIVERS WHEN DRIVING RENTAL VEHICLES

A. When a University employee rents a vehicle for use in the course of University business, the proper Authority to Travel Request is required to be submitted in advance and every effort must be made to obtain a vehicle from the pre-approved rental car vendor that is contracted annually with the state of Texas. When utilizing the state rental car vendor, primary automobile liability and comprehensive physical damage waiver will be automatically included in the pre-negotiated state rate. The University’s automobile insurance policy will respond secondary as excess liability to the state vendor insurance coverage.

B. If renting a vehicle from a non-contracted rental car vendor, primary automobile insurance may not be included in the base rate and is available to be purchased from the vendor. Please refer to your department for reimbursement approval of these additional travel expenses. The University’s automobile insurance policy will respond secondary to any available primary insurance.

VII. INSURANCE COVERAGE FOR AUTHORIZED DRIVERS WHEN DRIVING PERSONALLY OWNED VEHICLES

A. The Texas Financial Responsibility Law requires that every licensed driver in the state maintain minimum liability limits for third party injury or property damage that they may cause while operating a motor vehicle. If you are authorized to drive personally owned vehicles on behalf of the University, you must comply with the established state laws and maintain primary personal automobile insurance coverage.
B. The University's automobile insurance policy will respond secondary to the authorized driver's personal insurance and will provide excess liability coverage up to stated policy limits.

C. The University's automobile insurance does not provide comprehensive or collision coverage for the authorized driver's personal vehicle. Premium and deductibles for this coverage are not reimbursable and are the sole responsibility of the vehicle owner.
